### This appendix includes:

- amendments to the SUAT policy that have been approved by Trustees/ LAC
- specific practices and/ or procedures that are used in Perton Primary Academy
- additional information relevant to Perton Primary Academy

## The purpose and direction of the school's plan: vision and values

At Perton Primary Academy, we aim to provide each child with 'equal' access to the curriculum and provide an 'Inclusive Education'. We aim to focus on removing barriers to learning, so that *all* children can freely enjoy an experience school life to the full.

The DFES has set out key principles regarding Inclusion;

- 1) Setting suitable learning challenges
- 2) Responding to pupils' diverse needs
- 3) Overcoming potential barriers to learning and assessment

Our Inclusion policy clearly states how we are achieving and developing our ethos of Inclusion.

At Perton Primary Academy we provide opportunities for *all* stakeholders (pupils, staff, parents, visitors and the wider community) so that they can all equally access the

- 1) Curriculum
- 2) Environment
- 3) Information

It is the responsibility of all staff to underpin the core principle of the Accessibility plan and implement it within their role at Perton Primary Academy. All staff are aware through a variety of training and updates about the plan and the role the school is developing to help meet the learning needs of disabled pupils, so that the barriers to their learning potential can be removed.

The school has set the following priorities for the development of the vision and values that inform the plan by:

- Informing all staff and stakeholders of updates related to Accessibility planning
- Increasing Disability awareness amongst pupils through their learning
- Increasing the school's role in the wider community, developing links with charities and organisations that support those with disabilities

#### **Pupil Information:**

At Perton Primary Academy our school community includes a range of pupils who have disabilities. These are supported through the provision of reasonable adjustments in order to ensure they achieve their potential. The school has evaluated systems in place to identify Special Educational needs and/or disabilities and all staff are made aware of who to see and how to reduce the impact of their SEN/Disability needs to provide an 'inclusive education'.

The nature of the school in-take is changing, due to the re-generation of the area, as more people are moving into the village. We have already seen an increase in pupil numbers due to this.

The school is open to the possibilities that due to new legislation and inclusion, more children with SEN or physical disabilities are being placed in mainstream schooling. The SENCO has links with all the support services and is able to access these services to meet the needs of the pupils and to inform all staff of their responsibilities.

The definition of a Disability outlined by SENDA (2001) and accepted by the school is 'anyone with a disability being one who have a physical or mental impairment which has a substantial and long term (at least 12 months) adverse effect on his/her ability to carry out normal day to day activities.'

Within the context of school, the Act uses a wide definition of disability and may include those with Physical or mobility impairments

- Visual or hearing impairments
- SpLD such as Dyslexia, Dyspraxia, Autism Spectrum Disorders
- Learning Difficulties, such as Down's, MLD, SLD,
- Mental or emotional health difficulties
- Speech and Language Difficulties e.g. Selective Mutism

The school is a one floor site, with extensive grounds and is a two-form entry school. There are interactive whiteboards in all classrooms. The Pre-School and Nursery have a separate entrance with a wide door way to enable pushchairs and wheelchairs to enter.

At present pupils with a disability with support can access all facilities within the school, with help from an able-bodied person and the use of the lift. The facilities within the school can be easily adapted to meet the initial needs of a disabled person. In our present site, we have disabled toilets.

Off-site activities have to be accessible for all pupils. It is the responsibility of the lead teacher for the visit to plan and access all 'off-site (trips) activities' for those with additional needs, so that *all pupils* can fully experience the activities. At Perton Primary Academy, we actively encourage all pupils to take part in wider activities, especially those that they would not experience outside the educational setting.

The curriculum is timetabled, so that all pupils have equal access to each subject. Pupils are encouraged to take part fully and make the most of themselves through a range of school initiatives; Peer and self-evaluation; school council and teacher led differentiation.

All teaching staff are encouraged to use a wide range of materials and different strategies to make teaching and learning fun and enjoyable. Staff training have focused on 'teaching skills' and all staff are aware of the schools standards and expectations from its teaching staff. All staff are aware of pupils needs and these are catered for in careful differentiation, resources and teaching style.

Pupils through the school council, pupil interviews and learning walks are supported to play an important role in creating a 'pupil led ethos', whereby their views are highly regarded and where possible their ideas are implemented.

Pupils' awareness of 'Bullying' is covered through PSHE and addressed by the school council ambassadors. The school pupils have a high regard for each other and encouraged to allow for each others' different needs. All pupils including those with SEN/disabilities have their achievements celebrated within school in many ways; whole school assemblies, 'Dojo' points, Star of the week awards, sporting certificates/trophies, Head Teacher awards. Celebrating success is led by the whole school.

Pupils with SEN or those with disabilities are individually monitored by the class teacher and formally through data analysis by the Senior Leadership Team. Classroom observations enables the SLT to see where differentiation is working, effective class teaching, areas for development and general classroom practice. Effective monitoring of the SEN and Disabled pupils ensures that the Every Child Matters agenda is implemented through the whole school.

### Physical Access:

The school has wide door ways to allow for easy wheel chair access. There are no steps. There are disabled toilets on both floors. All doors are accessible by wheelchairs.

## Lighting:

The school is very bright and well lit. All rooms have adequate lighting and good natural light. Where needed, rooms have been fitted with blinds to enable optimal use of interactive whiteboards. Classrooms have automatic lighting system.

## **Colour Contrast:**

The school is painted in a range of colours and the school displays are encouraged to be well presented, colourful, interactive and a mixture of symbols, text and pictures.

## Toilets, Changing and Washing Facilities:

We currently have disabled toilets for staff and pupils. The washing facilities for the pupils and staff are located within the toilets. The school hall is easily accessible via one external door, a door via the foyer and via the main corridor.

## Playground and Common Areas:

The playgrounds are easily accessible, all on one level, consisting of both grass and tarmac. This has recently been replaced making it more accessible with a smooth, even surface. There is a slight slope to the field.

## Furniture/Equipment:

All furniture can be moved in each classroom, to improve access to classrooms. Provision may need to be made for pupils with certain disabilities and the school would have to seek advice on this, according to the pupils needs. All classrooms have access to a variety of equipment to use, and these are suited to particular year groups and key stages. Equipment can be easily transferred from classroom to classroom and can be allocated to the pupil(s) if required.

# Improving the delivery to disabled pupils of information that is provided in writing for pupils who are not disabled:

At Perton Primary Academy, we have many pupils who come into the school setting with communication or speech problems. All staff recognise and report any pupils who are experiencing problems accessing information.

The school has a good network of support through the SENCo and SENSS in accessing specialist support, whereby assessments can be carried out and a programme of support introduced. Staff are therefore trained to deliver any Speech and Language programmes using signs, symbols, simplified language and large print. All staff are fully aware of pupils within their classes on the SEN register, their targets and the resource and provision they need to progress.

Staff have also been trained to use a variety of ICT programmes to improve readability of texts and accessing information.

The school makes its accessibility plan available in the following ways:

- All staff and SEN governor will be given a copy of the plan and action plan.
- All stakeholders will be made aware of the published plan via the parent information boards.
- Hard copies copies of the plan in text, will be available to take away. The copies will be formatted using colour and in dyslexic friendly font. The readability will also be checked.
- The plan can also be discussed via a meeting with the Head teacher, SEND governor or SENCO.
- The plan can also be accessed via the school website.

# Perton Primary Academy Disability Equality Scheme and Accessibility Action Plan

Appendix 1

## **Aims**

- a) To increase the involvement of those with disabilities in deciding action that impacts upon them.
- b) To increase access for those with a disability to the physical environment of the academy, the curriculum and ensure equality in regards to access to information
- c) To evaluate and report to parents on the success of the action plan in meeting its targets <u>Our Action Plan</u>

Improving the Curriculum Access at Perton Primary Academy

Target	Strategy	Outcome	Timeframe	Achievement
Training for teachers on differentiating the curriculum for those with a disability.	Undertake an audit of staff training requirements.  From the audit organise relevant training to meet the needs identified.	Teachers are able to meet the children's needs with regards to accessing the curriculum.	Ongoing	Increase in access to the National Curriculum
Ensure children with autism are given the support they need to access the curriculum as fully as possible.	Organise training and support for staff from the Autism Outreach Team.  Autism outreach Team engagement and support for those with a diagnosis.	Teachers are able to fully meet the needs and requirements of children with autism and their ability to access the curriculum.	Ongoing support and partnership with Autism Outreach (AOT)  Signposting staff to training on National College.  Autism Outreach training (whole school) held in Jan 2024	Increase in access to the National Curriculum.  Increase awareness and confidence in staff.

Improving the Delivery of Written Information

Target	Strategy	Outcome	Timeframe	Achievement
Ensure parents are able to access information in all parent/teacher meetings.	Ask parents with identified disability about preferred methods of communication (e.g. telephone call, face to face, written message.)	Parents are able to access parent meetings and communication between parents and staff is successful.	Ongoing with transition each year.	School is more effective in communicating with the parents
